

	Energy Policy	Rev.00
SCHREIBER FOODS ESPAÑA S.L.	Management Commitment	Date rev: 03/02/25

The management of SCHREIBER FOODS ESPAÑA S.L. establishes this Energy Policy at Noblejas and Talavera plants as a commitment to improving energy performance and reducing the resulting CO2 emissions, using the UNE-EN-ISO 50001 standard as a model for the design and development of the Energy Management System (EnMS) implemented.

SCHREIBER FOODS ESPAÑA, S.L. promotes efficient energy use as one of its priority objectives, in line with its environmental policy and the Company's commitments to sustainability.

For this reason, we are committed to:

- Integrating energy considerations into the business strategy, taking energy criteria into account in planning and decision-making.
- Systematically measuring, evaluating, and controlling significant energy consumption at facilities to ensure continuous improvement in the energy performance of the production process.
- Ensure compliance at all times with applicable legal requirements and other signed requirements related to energy efficiency and energy use and consumption.
- Improve the energy efficiency of our operations, both in facilities and equipment, by applying energy management principles and practices and establishing operational controls in different areas.
- Provide information and training to implement the procedures necessary to achieve the objectives and goals defined in the implemented EnMS in each job position; assuming the commitment of each employee to apply the principles of energy savings and efficiency expressed in this declaration.
- Ensure the availability of information and resources to meet the objectives and goals defined in the EnMS.
- Support the purchase of energy-efficient products and services and the design and development of products with the best possible energy performance.
- Inform suppliers and contractors so they adopt the same attitude and principles of energy efficiency, especially when operating in our facilities.

SCHREIBER FOODS ESPAÑA, S.L. will periodically review and revise this energy policy and its EnMS in order to improve them and adapt them to the changing conditions of the organization. This policy will be communicated to all employees and the general public upon request.

Gustavo Deb

Vice President Operations Europe
